

2024 SPONSORSHIP INFORMATION

AAF THIRD DISTRICT NSAC & EDUCATION FOUNDATION
Developing Talent that will Define the Future of Advertising

DISCOVERING BRILLIANCE

The District Three American Advertising Federation National Student Advertising Competition (NSAC) program give you access to the most creative minds trained in the best advertising, media, communications, and marketing classrooms across North Carolina, South Carolina and Virginia.

There is no better way for students to learn about the advertising campaign process than by actually developing a campaign for a real client.

The NSAC is the premier college advertising competition. It provides more than 2,000 college students the real-world experience of creating a strategic advertising/marketing/media campaign for a corporate client. Students develop a plans book and then pitch their work to advertising veterans at the district, semi-finals and national levels.

Each year, a corporate sponsor provides an assignment or case study outlining the history of its product and current advertising situation. The case study reflects a real world marketing challenge. Students must research the product and its competition, identify potential problem areas and devise a completely integrated campaign for the client.

Because of the Third District's commitment to education, each year we host, staff, and pay for the two-day competition that will send the winning team to compete at the national level. It is our desire to make this transformational educational experience accessible to as many of our district's students as possible. Therefore we provide this competition at no cost to the participating students.

College and university teams from across our district are working to develop innovative campaigns for this year's client, Tide. These students are the best and the brightest, their hard work will culminate with the District 3 NSAC competition in Richmond, VA April 2024, and they need your support.

We encourage you to review our portfolio of educational partnerships and hope you will find sponsorship opportunities that will help your organization develop, grow, and recruit top young talent.

GROWING CREATIVE MINDS

**The next generation of industry innovators are being created now.
Support the student experience.**

The AAF Third District NSAC & Education Foundation

Practical experience is an invaluable counterpart to classroom learning. Each year, the AAF's National Student Advertising Competition (NSAC) provides college advertising students with an opportunity to practice what they've learned.

The NSAC & Education Foundation provides the funding that allows our district to offer participation for all students at no charge to them. Your sponsorship will support one of the most important learning experiences in their college careers. All sponsorships are applied directly to the costs of holding the competition, providing awards, or offsetting travel expenses, making your support both practical and meaningful.
